GREAT AMERICAN BANCORP, INC. UNAUDITED RESULTS FOR FOURTH QUARTER 2008 NET INCOME FOR FISCAL 2008 - \$1,110,000

Champaign, Illinois - Great American Bancorp, Inc. (Over-the-Counter Bulletin Board/GTPS), the holding company for First Federal Savings Bank of Champaign-Urbana, reported net income of \$1,110,000 for the year ended December, 31 2008, which is a decrease of \$48,000, or 4.1% from the \$1,158,000 reported for 2007. Basic earnings per share were \$1.93 for the year ended December 31, 2008 and \$1.79 for the year ended December 31, 2007, while fully diluted earnings per share were \$1.91 for 2008 and \$1.78 for 2007. Earnings per share were higher in 2008 due to a reduction in average common shares outstanding in 2008 compared to 2007. Average common shares outstanding declined in 2008 due to the Company repurchasing treasury shares.

Net income was lower in 2008 compared to 2007 primarily due to a decrease in net interest income and an increase in the provision for loan losses, offset by lower noninterest expense and income tax expense.

Net interest income was \$5,501,000 for the year ended December 31, 2008; decreasing \$260,000 or 4.5% from \$5,761,000 reported for fiscal 2007. Interest income was \$8,005,000 for 2008 compared to \$8,678,000 for 2007, decreasing \$673,000 or 7.8%, due to decreases in interest income from loans, securities and financial institutions and other.

Total loan income decreased \$252,000 or 3.2% from \$7,932,000 for 2007 to \$7,680,000 for 2008. This decrease was primarily in interest generated on commercial mortgage loans, commercial

business loans and revolving consumer loans. The reductions in interest income in these loan categories were mainly due to the sharp decline in market interest rates during 2008, which affected both rates on new loans and adjustable rate loans where the interest rate is tied to the prime rate. The prime rate declined from a high of 7.25% on January 1, 2008 to a low of 3.25% in December 2008. The yield on total average outstanding net loans decreased from 7.04% in 2007 to 6.72% in 2008. The balance of total average net loans outstanding during 2008 increased \$1.64 million from \$112.62 million in 2007 to \$114.26 million in 2008. The growth in the balance of total average net loans occurred primarily in residential mortgage loans, commercial business loans and consumer loans, offset by a reduction in the balance of total average commercial mortgage loans.

Interest income from securities decreased \$54,000 in 2008 due partly to the maturity of a U.S. Agency security in October 2007 and also due to a decline in the balance of mortgage-backed securities in 2008. Interest income from deposits with financial institutions and other, which are all over-night or short-term deposits, decreased \$340,000 or 55.7% due mainly to the reduction in market interest rates during 2008. In 2008, the Federal Funds Target Rate, as established by the Federal Open Market Committee, declined by approximately 400 basis points. The average yield on deposits with financial institutions and other declined from 4.84% for 2007 to 2.06% for 2008, a decrease of 278 basis points.

Interest expense decreased \$413,000 or 14.2% in 2008, from \$2,917,000 for fiscal 2007 to \$2,504,000 for 2008. Interest expense on deposits decreased \$414,000 or 18.8% in 2008, due primarily to decreases in interest expense on Insured Money Market Accounts ("IMMA") and certificates of deposit. Interest expense on IMMA deposits decreased \$118,000 in 2008 due to management lowering the offering rates on these deposits as market interest rates declined during 2008. The average rate paid on IMMA deposits decreased from 2.87% during 2007 to 1.94% in 2008. Interest expense on certificates of deposit decreased \$296,000 in 2008, due mainly to a reduction in the average balance of total certificates of deposit and a decrease in the offering rates on new and renewing certificates of deposit. The average balance of total certificates of deposit declined from \$38.54 million during 2007 to \$36.52 million during 2008. This decline was mainly due to depositors transferring maturing longer-term certificates to IMMA and NOW accounts during 2008 due to declining certificate of deposit offering rates. The average rate accrued on certificates of deposit was 3.58% for 2008 compared to 4.16% for 2007. The average balance of total IMMA accounts increased from \$17.65 million during 2007 to \$20.03 million during 2008, while the total average balance of NOW deposits increased from \$21.88 million for 2007 to \$22.74 million for 2008.

Interest expense on Federal Home Loan Bank advances was \$10,000 higher in 2008 due to an increase in average outstanding advances during 2008. Total Federal Home Loan Bank advances averaged \$13.94 million during 2008 compared to \$13.72 million during 2007. The average rate accrued on Federal Home Loan Bank advances was 4.92% for 2008 and 4.93% for 2007.

The Company recorded \$146,000 to the provision for loan losses in 2008 compared to zero in 2007. The provision recorded in 2008 resulted from losses incurred in the fourth quarter of 2008 related to one borrower in the residential construction business. This borrower's business was greatly affected by a sharp decline in the local demand for new residential homes and condominiums during 2008. The borrower deeded his unsold inventory financed by the Bank to the Bank during the fourth

quarter of 2008. Because local real estate values had declined during 2008, the Bank charged off \$202,000 in loans related to this borrower and transferred \$900,000 to real estate owned. Management's analyses of the allowance for loan losses during 2007 determined that no additional allocation to the allowance was warranted.

Noninterest income totaled \$3,231,000 for 2008, \$29,000 higher than the \$3,202,000 recorded for fiscal 2007. This increase occurred primarily in customer service fees, net gains on sales of loans and other income, offset by a reduction in insurance sales commissions. Insurance sales commissions decreased \$257,000 in 2008 due to GTPS Insurance Agency losing several smaller commercial accounts to local competitors, a general decline in industry premiums which affects commission income, and a decrease in contingent commissions. A contingent commission is a commission paid by an insurance company that is based on the overall profit and/or volume of business placed with that insurance company. Customer service fees increased \$146,000 in 2008 due to the Bank implementing an overdraft fees. Overdraft fees were \$139,000 higher in 2008 due to the Bank implementing an overdraft protection service in May 2007. For customers with this service, called "Overdraft Privilege," the Bank may elect to pay overdrawn items rather than returning the items unpaid. Net gains on sales of loans were \$82,000 higher in 2008 due to the Company selling \$11.91 million in loans during 2008 compared to \$8.05 million in fiscal 2007. The increase in other income of \$37,000 in 2008 was in brokerage commissions.

Noninterest expense was \$6,850,000 for 2008, decreasing \$252,000 from the \$7,102,000 recorded for fiscal 2007. This decrease was primarily in salary and benefits expense, professional fees, marketing expense, printing and office supplies, and real estate owned expenses.

Income tax expense was \$626,000 for fiscal 2008 compared to \$703,000 for 2007. The effective tax rates for 2008 and 2007 were 36.1% and 37.8% respectively.

Net income for the quarter ended December 31, 2008 was \$238,000, \$40,000 or 20.2% higher than net income for the quarter ended December 31, 2007 of \$198,000. Net interest income was \$1,346,000 for the quarter ended December 31, 2008, \$74,000 or 5.2% lower than the \$1,420,000 reported for the quarter ended December 31, 2007, mainly due to lower interest income from loans and deposits with financial institutions and other, offset by a decrease in interest expense on deposits. Noninterest income for the fourth quarter of 2008 was \$767,000, \$38,000 higher than the \$729,000 reported for the fourth quarter of 2007. This increase was primarily in insurance sales commissions and net gains on sales of loans. Noninterest expense was \$1,595,000 for the fourth quarter of 2008 compared to \$1,830,000 for the three months ended December 31, 2007.

Total assets at December 31, 2008 were \$142.55 million compared to \$144.25 million at December 31, 2007. Total cash and cash equivalents decreased \$2.37 million, from \$18.06 million at December 31, 2007 to \$15.69 million at December 31, 2008 mainly due to cash required to fund treasury stock repurchases. Treasury stock increased \$2.02 million in 2008. Total net loans increased slightly, from \$115.64 million at December 31, 2007 to \$115.78 million at December 31, 2008. Total deposits only decreased slightly, from \$110.80 million at December 31, 2007 to \$110.57 million at December 31, 2008.

First Federal Savings Bank of Champaign-Urbana is head quartered in Champaign, Illinois, and operates through its administrative/branch office in Champaign and through two other full service branches located in Champaign and Urbana.
